17-Year-Old Youth Confesses Murder of Girl in Theater

Presses Trigger of Gun and Kiss on Her Lips Simultaneously

Chicago, Feb. 25.—(AP)—A 17-year-old former high school student was seized in suburban Berwyn today and confessed, Coroner A. L. Brodie announced, that he pressed a kiss on pretty Dorothy Broz, his 16-year-old girl friend, and then shot her to death while they sat in the downtown Palace theater.

The youth, Clarence McDonald, a railroad employee, was seized on information supplied by the victim's girl friend, Miss Elaine Mastney, 17, who told authorities that Dorothy said Clarence was inordinately jealous and had declared:

"If I can't have you, nobody else will."

Following his arrest at the home of a sister, some 12 hours after the shooting late yesterday in the theater balcony, where "Heliza-Poppin'" and "Sealed Lips" were being shown, the youth made a statement to the coroner and Assistant State's Attorney Leslie Curtis.

"I don't know—it just happened," he was quoted as saying.

"Was there any conversation before you shot her?" the boy was asked.

"No," he replied. "I was kissing her."

Young McDonald said he had been going with Dorothy for about two years, that they had talked of marriage, but later had decided "to wait four years until she was a little older." He admitted, the officials said, that on a former occasion he had drawn a pistol on the girl while they were in an ice cream parlor, but that he was just "fooling."

Identified by Uncle

The clue to McDonald's arrest was obtained shortly after the identification of Dorothy's body in the morgue where it had lain among the unknown dead for almost 11 hours after the shooting.

Identification was made by an uncle who said Dorothy, also of Berwyn, was the daughter of a real estate man and that she had finished high school this month.

Police had obtained only a vague description of the youth who stepped across Dorothy's bleeding body, sprinted up an aisle and escaped in the dark and confusion of the theater.

Young McDonald directed officials to a garage at the back of his home in suburban Berwyn and pointed out a spot where the coroner said he had hidden the pistol with which the girl was killed. After the weapon was found McDonald was taken to the county building where he made a statement to the coroner and Assistant State's Attorney Leslie Curtis.

Reported Statement

"We seen the picture and I kissed her and shot her—that's all," the youth was quoted by Brodie as saying.

He added that he had had no argument with the girl at the time, but said that he had been going with her "off and on—not steady" for about two years.

When Prosecutor Curtis asked the prisoner how the shooting happened, he replied:

"I don't know. It just happened."

Dorothy, he continued, felt the pistol in his pocket while they were on their date, and had pleaded with him to give it to her, but he refused to do so.

After the shooting young McDonald said he ran to the upper balcony, mixed with the crowd, went to the first floor, and then walked out an alley door, later

The War Today!

By DEWITT MacKENZIE

(Telegraph Special Service)

Militarily and politically the Indian Empire suddenly has surged into the front ranks of the war.

British India, which for long generations has had perforce to view independence through the small end of the telescope, finally seems to have reversed the glass. England's declaration yesterday "in favor of India's political freedom" must be taken to mean that John Bull at long last is prepared to grant some form of dominion status which, while according self-government, would retain Hindustan as a subject of the crown.

The present hurried move comes at a moment when the Mikado's hordes are battering at the ramparts of Burma, with the avowed intention of conquering all India. To put it bluntly, the Indian Empire—one of the principal allied arsenals—is in danger, and the British are bidding heavily for native co-operation in the war, the price of which has been set at absolute independence.

Whether Britain's offer comes in time is problematical for Japan is hitting hard and fast. The great Burmese port of Rangoon may come under siege at any time now, and Japanese submarines reportedly are starting to rove the Indian ocean.

There are age-old religious differences to be bridged between the Moslems and the Hindus—a titanic task in itself. London says it's up to the Indian leaders to devise a scheme which will be satisfactory to all.

And so a problem which has evaded solution for generations must be solved overnight. Still, the Japanese hurricane is blowing the flames beneath the melting pot to white heat, and it may be that this desperate emergency will melt and merge these factions which have been shedding each other's blood for so long.

No details having been announced, it isn't clear whether this new freedom applies only to British India (that is, the provinces with their population of 296,000,000) or also to native India (which comprises the states under the princes who rule a population of 33,000,000). There long has been talk that some day all India might be made to work together in political harmony, and possibly something of this sort might be tried now.

However, even if the warring factions of British India be brought together, the powerful princes will still be reluctant to

In Colorado

Kremmling, Colo., Feb. 25.—(AP)—The temperature in this central Colorado mountain town today, but a week ago—was 56 degrees below zero.

The report is unofficial, from a railroad station agent's thermometer, but the weather bureau permits its publication now—for what-ever aid and comfort it may give the enemy to know that Colorado can match Russian temperatures.

MacArthur's Troops Want Only to Keep Fighting and Tools

Are Counting on United States to Get Them Needed Weapons

BY CLARK LEE

With Gen. MacArthur on the Bataan Peninsula, Feb. 23.—(Delayed)—(AP)—The battle of Bataan appears to have entered a definite stalemate, with the Japanese abandoning at least temporarily their hitherto costly efforts to crack General Douglas MacArthur's line across the peninsula.

There are at present no indications whether the Japanese are awaiting reinforcements, planning attacks against Bataan and the island fortress of Corregidor from new directions, or whether they are content to tighten their encirclement in an attempt to starve the American-Filipino defense forces into eventual capitulation when supplies and provisions are exhausted.

In the past week infantry activity on the Bataan front has been desultory, while artillery duels between Japanese on the south shore of Manila bay and the guns of Corregidor and other fortified islands have been intensified.

43 Men Saved from Wrecks of U. S. Destroyer Truxton and Navy Ship

St. John's Newfoundland, Feb. 25.—(AP)—Forty-three survivors of the United States destroyer Truxton and the U. S. naval supply ship Pollux owed their lives today to the hardihood of men, women and children from the village of St. Lawrence who rigged up a bosun's chair in defiance of the storm that smashed the ships, and pulled the seamen to safety over a 200-foot cliff.

The survivors were hospitalized in Argentina at a U. S. naval base across the bay from the place where the vessels were wrecked with the loss of at least 189 men.

The story of the rescue was the first report of the number of men saved. Yesterday's announcement from Washington merely estimat-

ed the number of casualties.

Word that the two ships were in distress brought the villagers of St. Lawrence to the scene from across three miles of snow-covered, wind-swept hills.

They found a cluster of men clinging to a cliff and began hauling them to the top with the bosun's chair, a rough wooden seat slung from a rope.

Other rescuers attempted to save some in the surf by a dory lowered from the top of the cliff but the little boat was swamped. Its crew was saved.

A third U. S. ship struck the shore in the same storm which wrecked the destroyer and supply ship, but floated clear and reached harbor.

Anti-Aircraft Guns Blaze on California's Coast--United Nations List Air Triumphs

Smashing Triumphs Over Nazis Claimed by Russians Today

Slaughter of 14,250 of Invaders Announced by Moscow Office

By The Associated Press

Russia proclaimed a smashing new victory over Adolf Hitler's battered invasion armies today even as the fuhrer announced that the bitter snows of winter were melting and that he had completed preparations for the "final struggle" this spring.

"Snow and frost brought to a temporary standstill to the series of victories of the German army, unique in history," Hitler declared in a message to Nazi party followers.

"Our enemy then hoped to inflict on the German army the fate of the Napoleonic retreat. This attempt has collapsed miserably."

In Moscow, Russians celebrated a communique reporting that the triumphant Red armies had crushed Germany's 16th field army, shattering three divisions and killing 12,000 troops in the Staraya Russa sector, 140 miles below Leningrad.

Staraya Russa had been a key German base guarding the southern flank of the Nazi armies before Leningrad. A decisive breakthrough by the Russians would gravely endanger the whole northern arm of the German invasion and presumably force a hurried withdrawal of the Nazi siege forces around Leningrad.

Claim Gains in Ukraine

Soviet front-line dispatches also reported important new Russian gains during the past 48 hours on the southwest front—presumably between Orel and Kharkov, in the Ukraine—with the slaughter of 2,250 Nazis.

Hitler tacitly acknowledged the intensity of the winter war by foregoing a Nazi party fete in Munich to remain at his military headquarters.

"It is impossible for me to leave my place, where preparations have been made for the final struggle," the German fuhrer messaged party associates observing the 22nd anniversary of the Nazi platform.

This was the Hitler who boasted last Oct. 3 that the Russian army "already is broken and will never rise again"; who blamed the weather for subsequent reverses, and declared that 1942 "will again be a year of great victories."

Explosion in Ankara

Bern dispatches said Russia's scorched earth policy, labor shortage and the flight of thousands of potential workers before the German army had crippled attempts to gear the economy of occupied Soviet areas to that of the Reich.

Belligerent capitals placed varying lights upon the explosion of a bomb in Ankara, the capital of non-belligerent Turkey, on a boulevard only about 18 yards from the strolling German ambassador, Franz von Papen and his wife. The man who carried the bomb was killed.

Axis reports said there was a general belief in Berlin that British or Russian agents were responsible.

An Ankara dispatch to Reuters, British news agency, declared, however, that papers bearing the stamp of the German embassy had been found in the clothing of the victim, Von Papen and his wife were not injured.

Police Told to Pick Up Tardy Motorists

Springfield, Ill., Feb. 25.—(AP)—Police chiefs in Illinois cities were asked today, Secretary of State Edward J. Hughes said, to start a campaign against auto owners who haven't purchased their 1942 state motor vehicle licenses.

Hughes said about 1,200,000 sets of the new license plates have been distributed to date, but that some 600,000 cars still are displaying last year's licenses.

Administration of Constructing Plant Centered in Dixon

Temporary administration headquarters for the housing of several departments which will soon be active in the building of the Green River Ordnance defense plant, south of Dixon, will be located in the newest of the group of buildings at the J. I. Case Co. property, the old Grand Detour plow shops site on Depot avenue.

The transaction was reported to have been closed yesterday for the leasing of the large warehouse building, where local contractors today started operations.

Major J. C. Lowery of the U. S. Army engineers, who has been transferred from Burlington, Iowa to the Green River Ordnance plant, will, upon his arrival, have his offices in this building. Architects, contractors, draftsmen and engineers will be located in this building as soon as the interior can be arranged.

From One Center

The first two floors, it was reported today, will be divided into office spaces for the numerous departments. It was also announced that the offices of the personnel group now located at 410 First street, would also be moved to the Depot avenue location and practically all operations will be centered in the one building.

Major Lowery had not arrived in Dixon at noon today but several other department heads who will be active in the building operations are here with many more to arrive within the next few days. Previously, it had been rumored that the J. I. Case property was being considered as a possible site for the location of a defense plant.

Sangamon Land Owners Protest Defense Plant

Illinois, Ill., Feb. 25.—(AP)—The war department's plan to convert 58 sections of the nation's richest farm land into a site for an ordnance plant today brought a strenuous protest from Sangamon valley farmers.

The area surveyed for the plant by army engineers consists of 37,120 acres embracing numerous farms which have produced corn, small grains and soybeans in large quantities.

Two hundred residents of the affected area, who met last night at Lanesville to organize protests to their senators, congressmen, the war department and farm leaders, heard that the war department already has let a preliminary \$5,000,000 contract involving the project to the Remington Rand Corporation of Buffalo, N. Y.

Congress Turns About on Voting of Pensions

Washington, Feb. 25.—(AP)—Congress has washed its hands of the pensions-for-congressmen law, which has brought tons of angry mail from taxpayers since it was signed by the president Jan. 26.

The house vote was 387 to 7. Actually it was on a technical motion instructing house conferees to retain a senate amendment to a minor naval bill. The senate amendment repealed the congressional pensions.

"We are on a spot," one representative said, looking ahead to the fall campaigns, "and don't you think a lot of the boys aren't worried."

"Regardless of the repeal vote the fact remains that no one opposed the pension law when they came up originally on unanimous consent procedure."

President Steps Into Farm Price Dispute

Washington, Feb. 25.—(AP)—President Roosevelt stepped directly into the senate dispute over farm prices today with a letter protesting that a pending bill represented "selfish interests" at a time the very existence of the country was at stake.

The chief executive, in a letter read at the opening of the senate session, said that a proposal to restrict sales of government-held stocks of farm commodities would do "irreparable damage to the war effort and farmers of the country."

Enemy Transports, Planes Smashed by Attacks From Skies

Japanese Facing Major Challenge in Air for First Time in War

By ROGER D. GREENE
Associated Press War Editor

Allied warplanes blasting at Japan's sea-borne invaders were credited officially today with sinking three big enemy transports in the critical battle for the Dutch East Indies, while a Tokyo spokesman acknowledged that 26 Japanese transports had been sunk or damaged to date in the Far Pacific.

The spokesman, Commander Itaru Tashiro of the naval press section, said Japan expected even heavier losses because the United Nations had more than 1,000 planes in the war zone and 40 to 50 submarines.

A U. S. war department bulletin said seven American P-40 pursuit planes intercepted a formation of nine Japanese bombers escorted by 14 fighter planes over Java and forced the raiders to flee.

The bulletin said one Japanese bomber and one fighter plane were shot down. Four other enemy bombers and two fighters were damaged, without loss to the Americans.

Japs Challenged in Skies

As the day wore on, other United Nations triumphs in the air were reported, and it was becoming apparent that for the first time in the 11-week-old conflict Japan was facing a major challenge in the skies.

A Royal Australian Air Force communique said Australian bombers, slashing at Japanese bases 400 to 500 miles north of Australia, attacked both Rabaul, New Britain island, and Timor island, and set big fires.

Simultaneously, dispatches from Rangoon said 30 Japanese fighter planes were destroyed in the Burma battle area today.

Word of the allies' new aerial counter-punches came as Imperial Tokyo headquarters asserted in an English-language propaganda broadcast that Japanese planes had delivered a "mortal blow to the British and Dutch air forces" with the destruction of 68 allied planes based at Java yesterday.

Dutch headquarters acknowledged big-scale Japanese raids on the harbor and an airfield near Batavia, against naval objectives

Sinking of Norse Freighter Revealed

Baltimore, Feb. 25.—(AP)—Six men, the only known survivors of the torpedoed Norwegian freighter Blink whose sinking was announced by the navy department today, told haltingly of their 66 hour fight for life in a swamped lifeboat on rough, shark-infested seas.

The 2,700-ton freighter was torpedoed without warning off the Atlantic coast with a probable loss of 24 lives.

The survivors believe the chief engineer, donkeyman and a fireman of the 22-year-old ship were killed when two torpedoes exploded in the engine room. They believe four others were lost on a life raft.

They watched 17 other crewmates in their crowded lifeboat go mad, then die of thirst and exposure. Their bodies were thrown or washed overboard.

The six were brought to Baltimore on an unidentified vessel last week and taken to the U. S. Marine hospital. There were no Americans in the mixed crew.

Enemy U-Boats Have Torpedoed 24 Vessels Off U. S. Since January 14

West Palm Beach, Fla., Feb. 25.—(AP)—Enemy submarines, apparently striking at United States oil supply lines, have added two more American-owned tankers to their toll of shipping attacks in Atlantic coastal waters.

The navy revealed yesterday that torpedoes ripped into the 8-103-ton Cities Service Empire, of New York, and the 5,287-ton Republic of Houston, Tex., leaving 16 seamen dead or missing. Fifty-seven were rescued.

These latest attacks brought to 24 the officially-announced number of ships torpedoed off the United States coast since axis U-boats began activity Jan. 14. Fourteen were tankers.

Eight tankers were sunk, damaged or beached and large oil in-

stallations were shelled in the Dutch West Indies, where important producing areas are located.

The American west coast waters had a number of submarine attacks about Christmas. Monday night a submarine ineffectually shelled an oil field near Santa Barbara, Calif.

Landing of 28 survivors from the Republic and 29 from the Cities Service Empire followed closely the arrival at Jacksonville, Fla., last week of 18 survivors of the torpedoed tanker Pan Massachusetts, in which 20 seamen probably last their lives.

The Cities Service Empire's captain, William J. Jerman, 28, of Upper Lary, Pa., was among the dead. The Republic's captain, Albert H. Anderson, 52, of Houston, was rescued.

Roll Call

Washington, Feb. 25.—(AP)—Here is the way Illinois members of the house went on record in the vote which repealed pensions for congressmen:

Democrats for: Beam, Kelly, Kocalkowski, McKeough, Maciejewski, Allen, Arends, Bishop, Chipfield, Day, Dewey, Dirksen, Hedinger, Howell, Johnson, Mason, Paddock, Reed, Sumner, Wheat.

Democrats against: Mitchell.

Republicans: None.

Work or Fight Law May Be Requested by Administration

Washington, Feb. 25.—(AP)—Drastic "work or fight" legislation may soon be sought by the administration to give the War Labor Board a strong hand in its task of eliminating all stoppages in arms production.

An informed source predicted today that this request to congress was likely, and indications were that it would command strong support especially since President Roosevelt called on Americans in his Monday night radio address not to stop work a single day.

Proposals for such legislation were said to have originated with officials charged with responsibility for all-out war production. Roosevelt has repeatedly stressed the need for uninterrupted production in numerous speeches during the past year, but the arms program nevertheless has lost hundreds of thousands of man-hours because of labor-management, jurisdictional and other controversies.

Would Draft Strikers

As outlined by one influential Democratic senator, the legislation probably would include provisions for the immediate drafting into the armed forces of any

Government Will Buy Furniture for Homes in Arms Plant Centers

Chicago, Feb. 25.—(AP)—Col. Lawrence H. Whiting, president of the American Furniture Mart Building Company, Inc., said today that the government will purchase furniture for 90,000 homes for workers in arms plants centers in 1942.

Col. Whiting said he had been placed in charge of the program for 15 government housing agencies and for the army and navy. He added that cost of the furniture was estimated at \$36,000,000 and that about \$100,000,000 will be spent in 1943.

The furniture will be purchased through local retail dealers in arms centers, Whiting said.

Author of Red Network Files Divorce Action

Woodstock, Ill., Feb. 25.—(AP)—Mrs. Elizabeth Dilling, author of "The Red Network," filed a divorce suit in McHenry county Circuit court yesterday against Albert W. Dilling, a consulting engineer.

She charged cruelty and adultery. Her complaint alleged that her husband had "clandestine meetings" with a "Mrs. X" in 1922 and a "Mrs. C" in 1941.

Target of Gunners in Long Beach Area Kept Military Secret

Citizens of Southern California Awakened by Sirens at 4:30

Los Angeles, Feb. 25.—(AP)—Anti-aircraft guns thundered over the metropolitan area early today for the first time in the war, but hours later what they were shooting at remained a military secret.

An unidentified object moving slowly down the coast from Santa Monica was variously reported as a balloon and an airplane.

Some observers claimed to have seen two planes over Long Beach.

Army intelligence, although uncommunicative, scoffed at reports of civilian observers that as many as 200 planes were over the area.

There were no reports of bombing, but several instances of damaged property from anti-aircraft shells.

Warning air raid sirens at 4:25 a. m. (CWT) awakened most of the metropolitan area's three million citizens. A few minutes later, searchlights flashed along a 10-mile front to the south, converging on a single spot high in the sky.

Moments later the anti-aircraft guns opened up, throwing a sheet of steel skyward.

Report Flares Seen

Tracer bullets and exploding shells lit the heavens.

Eight Japanese, several described by police as aliens, were detained for questioning as widespread investigations were started. One report, based on data from official civilian air-raid wardens, that lights suspected of being possible signals to the enemy were seen blinking from vantage points throughout the entire blacked-out area.

These reports said flares were sent up singly and in series of three to five.

Three Japanese, two men and a woman, were seized by police at the beach city of Venice on suspicion of signalling with flashlights. They

Balcony Nearly Empty
Noisy with pistol shots and girlish screams, "Hella-Poppin'" had finished and a companion picture, "Sealed Lips," had started building its mystery plot.

In the nearly empty balcony, Dorothy was sitting with a young man. Suddenly she cried:

"Help, oh help me! He's got a gun!"

Those nearby heard her but associated her cry with the zany antics in the picture just ended. A scene in the crime feature, a fight in a prison mess hall, had the sound amplifiers roaring a perfect cover for the shot that followed by a few seconds.

"Oh, get that man. I'm shot, I'm shot!" Dorothy screamed, then collapsed in an aisle, a bullet beneath her heart.

The show went on and most of the audience that filled the main floor was unaware of the tragedy above. Patrons continued to enter and leave the theater and police believed the slayer walked out among them. An alarm system showed no emergency exit had been used.

Employees said the girl had been a patron of the theater almost daily for two weeks, each time with different youth. They recalled, however, that yesterday she came with a girl.

U. S. Bond Close

New York, Feb. 25—(AP)—

Closing bond prices:

Treas 3 1/2 45-43 104.9

entered a definite stalemate, with

the Japanese temporarily aban-

doning their costly attempts to

crack Gen. MacArthur's line

across the peninsula.

In London, an official spokes-

man hinted that evacuation of

British subjects from the embat-

tled Indies to Australia may al-

ready have started, "particularly

women and children who are not

required locally for the war ef-

fort."

A bulletin from N. E. I. head-

quarters said United Nations

planes sank two Japanese trans-

ports near Macassar, southern

Celebes island, and a third else-

where, and further attacked an

airdrome near Japanese-occupied

Palembang in lower Sumatra.

Jap Fleet Off Dili

Australia, herself on guard

against invasion, announced that

a strong Japanese war fleet had

been sighted off Dili, the capital

of Portuguese Timor, 400 miles

northwest of Australia, and that

Japanese parachute troops had

landed near Koepang, capital of

the Dutch half of the island.

Japanese transports in Dili har-

bor, however, were reported afire

and presumably this was a result

of blows struck by the Dutch-

Australian garrison of the Portu-

guese area or United Nations

warplanes based on Australia or

Java. The Japanese gained a

foothold in both the Dutch and

Portuguese sections of Timor last

week.

The battle crisis heightened in

Burma. Invaders described by

the British command as "fresh,

reinforced enemy forces" had

forced the defenders of the south-

ern front to retire to the west

bank of the Sittang river, the last

natural barrier to Rangoon, the

semi-deserted Burmese capital 60

miles to the southwest.

Merchant Shipping Loss

Since War Began Stated

London, Feb. 25—(AP)—Mer-

chant shipping losses of all na-

tions from the start of the war

to Jan. 1, 1942, were estimated by

the Chamber of Shipping of the

United Kingdom today at ap-

proximately 14,000,000 tons.

Britain, her allies and neutral

nations have lost 8,300,000 tons,

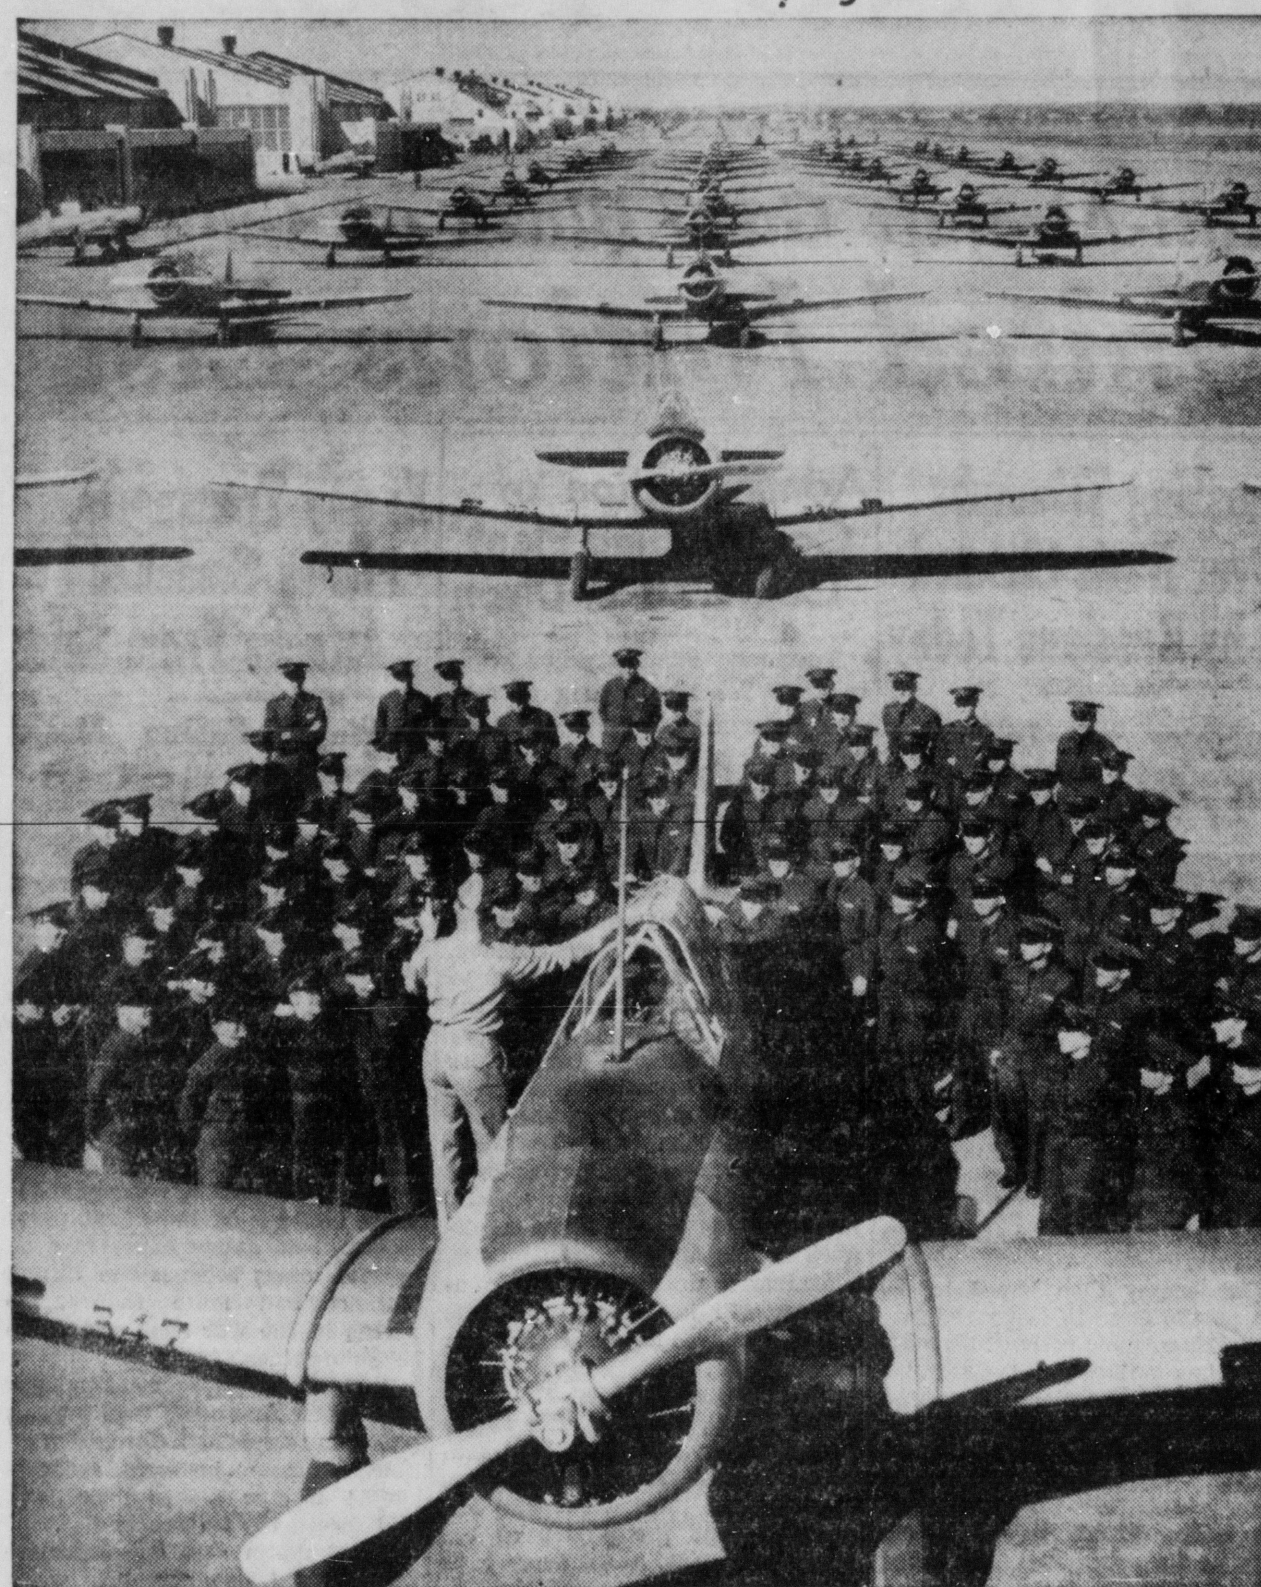

said the Chamber's annual report,

while Germany and her allies

have lost "not less than five or

six million tons."

A Lecture on the Flying Line

Gathered on Randolph Field's famous flying line for a few final words by their squadron commander, Lieutenant John S. Samuel, are these Aviation Cadets, a section of Class 42-D, which this week completes its ten-week basic training period, and in so doing, moves one step closer to coveted "wings" and commissions as Second Lieutenants in the United States Army Air Corps. These cadets will soon be working with multi-motored or more powerful single-engine planes in their advanced training, their final ten week step before being assigned to units of the United States Army Air Force.

striking worker who was subject to military service but who had received deferment because of employment in an essential war job.

Under tentative plans, workers not subject to the selective service who went on strike would be blacklisted and their employment banned for a period of time by any plant working on a government contract.

The president's call for uninterrupted war production brought predictions in congress, meanwhile, that if the War Labor Board failed to find a formula to keep all of the industrial wheels turning without stop, congress would act to see that the job was done.

Hershey Sees Every Able Bodied Man in Armed Forces of U. S.

Chicago, Feb. 25—(AP)—Brig. Gen. Lewis B. Hershey, national selective service director, believes "the time might come when every able-bodied man may be compelled to join the armed forces."

He told the Illinois Manufacturers' Association last night "it is essential to make efficient use of every man, woman and child capable of assisting in America's war effort."

Before January 1 the armed services must add 2,000,000 men and the war industries 10,000,000, he said. "Industrialists, the public and the selective service system must understand that these withdrawals cannot be in a manner which would jeopardize production."

Henry Senn, Peoria, Kills Wife's Escort Last Night

Peoria, Ill., Feb. 25—(AP)—Henry Senn, 35, and his wife, Bernice, 28, disagreed today about what he said just before Laverne Haywood, 38, was fatally shot on a Peoria Heights street late last night.

Senn said his remark was: "This would be a good night for a murder."

His wife, who was walking with Haywood, quoted her husband as saying: "Well, at last I've caught up with you."

State's Attorney Lester Carson said Senn, a factory worker, had confessed the shooting and was charged with murder.

Haywood, an interior decorator, was killed by the first of three bullets from a heavy revolver. Senn walked back to an all-night restaurant and surrendered to Policeman Robert Wilson with these words: "I just committed a murder."

Senn had visited casually with Wilson earlier in the night while he was hunting for Haywood. The confession said that Senn had gone to a movie in Peoria while his wife went to visit at the home of a neighbor. Senn said he came home after midnight and started hunting for his wife when he learned that she had left the friend's house earlier.

Attorney General Biddle Has Interned 448 Aliens

Washington, Feb. 25—(AP)—Attorney General Biddle announced today that among the first 1,084 enemy alien cases disposed of after being arrested by the FBI, he had ordered 448 aliens interned while releasing 215 out-right and paroling 421.

A total of 5,151 German, Japanese and Italian nationals have been seized since the war began December 7. Thus there are more than 4,000 cases still to be handled.

Biddle has been reviewing personally the recommendations of alien enemy hearing boards, which heard evidence submitted by the FBI. There are 93 such boards in the 86 federal judicial districts, each board comprising three to six citizens working on a voluntary basis.

Industrial Oil-Burning Equipment to be Changed

Washington, Feb. 25—(AP)—Deputy Petroleum Coordinator Ralph K. Davies disclosed to a congressional committee today that orders, for the conversion of industrial oil-burning equipment to coal, gas and other fuels, wherever feasible, have been submitted to the War Production Board for approval.

Testifying before the house interstate committee investigating the oil situation, Davies said the action was prompted by what he described as a growing petroleum shortage along the eastern seaboard and in the Pacific northwest.

'Petticoat Ponzi' Sent to Prison

Newark, N. J., Feb. 25—(AP)—Mrs. Amelia Everts Carr, revealed by police records as a "Petticoat Ponzi" with a half-century career, was sentenced today to serve eight to 12 years in prison on her plea of no defense to eight charges of obtaining money under false pretense.

Prosecutor William A. Wachendorf of Essex county has estimated Mrs. Carr obtained \$1,000,000 in coast-to-coast operations.

County Judge Daniel J. Brennan pronounced sentence on the woman's 66th birthday. He decreed that consecutive terms of two to three years at hard labor be served on each of four charges and that similar sentences, to run concurrently, be served on each of the others.

Mrs. Carr will be registered at state's prison, Trenton, but transferred shortly to Clinton reformatory because the prison keeps no female prisoners.

The defendant made no comment. She smiled faintly on the way out of the courtroom, under escort of a matron.

A delegation of women from the Roseville Methodist church, where she was an ardent church-worker, was present.

DIXON CLUBWOMEN WILL HEAR ADDRESS BY THEIR OWN VICE PRESIDENT, ESTHER M. BARTON

Members of the Dixon Woman's club will be listening to their first vice-president, Miss Esther M. Barton, when they meet at the Loveland Community House on Saturday afternoon. At 2:30 o'clock, she will tell the clubwomen how "The Southeast Faces Its Problems," in an address based on personal observations she made last summer during a five-week field course in sociology, "The Open Road," sponsored by Columbia University.

Miss Barton, a world traveler, who is well known for her accomplishments in both education and civic service, is principal of the Lincoln grade school; heads Alpha Alpha chapter of Delta Kappa Gamma national sorority for women in the field of teaching; is commissioner of summer playgrounds; and is a member of the recreational division of the Illinois Park district.

Last year's "Open Road" was the second to be held in the United States, following similar field trips made abroad in the past few years before world conditions became unsettled. Three days spent in Washington, D. C., interviewing and conferring with heads of the United States department of agriculture, southern congressmen, public health officials and the national resources planning board, were followed by a pilgrimage by automobile through the Carolinas, Georgia and Tennessee.

For seven days a week, the caravan interviewed every agency they knew was concerned with social welfare, including N. Y. A.; various schools, ranging from adult education, education of mountain people and Indian schools to vocational schools for Negroes; health agencies; courts and probation officers; newspaper publishers; various groups interested in the live-at-home program; hospitals, missions and recreational centers.

In Georgia, the Dixon educator was entertained overnight in a mountaineer home, and observed entertainment methods of the mountain people and Negroes. One day was spent in Columbia, capital of South Carolina, where public health and welfare department heads were interviewed.

Mrs. L. C. Street's public welfare department is in charge of Saturday's program. Her committee includes Mrs. E. H. Prince, Mrs. W. J. Williams, Mrs. Louis Pitcher, Mrs. W. G. Murray, and Mrs. R. J. Finley.

Mrs. Frank Robinson is chairman of the hostess committee. Assisting her will be Mrs. S. W. Lehman, Mrs. J. B. Lennon, Mrs. Robert Lesage, Mrs. Charles Lesage, Mrs. H. W. Leydig, Mrs. C. W. Lindeman, Mrs. George Lindquist, Mrs. William Loftus, Mrs. F. A. Longman, Mrs. A. W. Lord, Mrs. M. K. Lucey, Mrs. H. V. Luke, Mrs. C. C. Lund, Mrs. F. Lundholm, Mrs. J. C. Lyons, Mrs. L. G. Junior Clubwomen Hear Psychologist

Mrs. Oscar Johnson, head psychologist at the Dixon State hospital, addressed 44 members and friends of the Junior Woman's club Tuesday evening at the First Christian church. Her subject, "Recent Trends in Public Welfare," was illustrated with a number of personal observations. When a patient is discharged from an institution for the insane, Mrs. Johnson stated, he still needs aid in readjusting himself to society. To meet this need, two psychologists have been secured to supervise parole work. Mrs. Johnson mentioned new discoveries in treatments of the insane, which make possible the complete recovery of many patients formerly regarded as incurable.

A trend away from strict custodianship can be seen in treatment of juvenile delinquents. In illustration, the speaker referred to the newly-established division for rehabilitation of women and girls, the division of supervision of delinquency, and the metropolitan delinquency prevention division.

In the latter division, neighborhood units have been organized to combat the high rates of delinquency. Committees of citizens plan outings for children and organize clubs for boys and girls. Success of the project is indicated that statistics showing that in one metropolitan district, two-thirds fewer boys were arrested in a recent period than had been arrested previously.

Mrs. Johnson also spoke of prevention and treatment of juvenile delinquency by the Institute for Juvenile Research in Chicago. This Institute was founded primarily for research, but also provides for examination of children, and aids communities in establishment of their own clinics. The speaker concluded her talk by summarizing the work of various state institutions.

Miss Lois Sheffield, vice president, conducted the business meeting. Mrs. Ralph Schroeder and Mrs. Louis Salzman were appointed to serve as defense chairmen, and a nominating committee was appointed, preparatory for election of officers at the next meeting, March 10. Harold Cook is to be the next speaker.

Refreshments were served by a committee composed of Miss Dorothy Goeke, Miss Imogene Greer, Miss Lois Rosebrook, Mrs. Elm Rorer, and Miss Mildred Ransom.

Organize County Nutrition Group

A county nutrition committee, for the purpose of familiarizing residents of Lee county with local conditions in respect to the adequacy of nutrition and to help these residents solve their own nutrition problems, was organized Monday by representatives from various social, civic and professional organizations. Miss Marian Symphon, home adviser, is chairman for the new group, her co-officers including:

Mrs. Marian Church, county nurse, secretary; Mrs. Mark K. Lucey, county T. B. executive secretary; Miss Mabel Entorf, nursery school; Mrs. Calvin Castle, women's club; John Torrens, county superintendent of schools; the Rev. William E. Thompson, Ministerial association; Miss Clara White, home economics teachers; Miss Grace Ritson, Girl Scouts; Mrs. Dorothy Frost, nursery schools; and Mrs. Robert Preston, Red Cross.

Food plays a large part in determining the health, strength and reserve energy, the committee believes, and a special effort will be made to present helpful information about nutrition. Posters, talks, films, demonstrations and formation of nutrition classes will be some of the methods used to carry out a program designed to add years to the active span of life, reduce absences from school, solve some behavior problems, and reduce the number of days lost from work.

This is probably the only county in the world today that is producing sufficient quantities of food that people need, the committee points out—yet there are 45,000,000 undernourished persons in the United States. Other counties are also forming nutrition committees in cooperation with the state and national nutrition groups, working toward eradication of malnutrition.

A Thought for Today

My son, if sinners entice thee, consent
them not.—Proverbs 1:10.Acquaintance I would have, but when
it depends not on the number, but the
choice of friends.—Abraham Cowley.

They Have Forgotten Pearl Harbor

Washington had his sunshine patriots and Lin-
coln his copperheads. Today we have a new and
equally obnoxious breed—false front patriots. They
erect with loud talk and a great fan-fare of activity
a magnificent structure of patriotism. But it falls
flat with the first stiff breeze because it has a
false front.Specifically these big talkers and small doers
noisy by defense bonds and stamps one day and
very quietly cash them the next. Obviously this
sort of thing is about as helpful to our war effort
as is Hermann Goering.For instance, the Cleveland postoffice reported
defense stamp sales of \$274,093 one week but it
gave back \$75,900 to persons who did not wish
to keep these stamps or trade them in on defense
bonds. This was a net sell-out of Uncle Sam, Gen-
eral MacArthur, Admiral Nimitz, the thousands in
front line fighting and the millions on the home
front of 27 per cent.Reports of such redemptions, some more and
some less, come from other sections of the nation
and piled up to a total of \$6,646,712 stamp redemptions
in December. That is enough money to equip
a fleet of flying fortresses and slap the Japs with
a punch their honorable ancestors would hear.Some of these stamps undoubtedly were re-
deemed in bonds. Some persons were forced to
cash them because they lost their jobs or suffered
other financial jolts. Nevertheless, the percentage
remains too high if we are going to do much about
Pearl Harbor other than throw out our chests and
predict dire things for the enemy.Such fair weather patriots not only defeat the
purpose of the stamp program—to sharpen the ax
for the axis—but they cost the Treasury Department
money because stamps turned back must be can-
celed. Thus a tremendous amount of printing and
paper goes down the river. Furthermore, the re-
deemers are tossing away the very best investment
in the world.Possibly the Treasury may do something about
it. It would be a far better thing, however, if we
all would resolve to build and perpetuate our patri-
otism on solid ground, and issue a sort of moral build-
ing code outlawing false fronts.

The Test

There is no need to work up a temperature of
105 degrees because Democratic Party Chairman
Flynn said the country ought to elect a Democratic
House and Senate this fall. That is what party
chairmen are for—to plug for election of members
of their party.Flynn put it badly, urging election of Democrats
on the ground that only such could properly sup-
port the President. That is nonsense, as Flynn
probably knows himself. It is also bad politics, as
the President knows, with the memory of President
Wilson's appeal for a Democratic Congress in 1918
far fresher in his memory than in Flynn's. He re-
members that all Wilson's appeal did was to pre-
sent him with both a House and Senate predomi-
nantly Republican. So the President disavows
Flynn's appeal, and rightly so.The people are too sensible to be much moved
by partisan appeals at a time like this. What's
wanted in Congress today is men of the highest
ability we can get, men eager and loyal to support
their country in a fight that may well be one for its
very existence. Whether they are members of one
party or another is not going to cut much ice with
the majority of the voters this year, and the chair-
men of both parties will do well to remember it.What both parties ought to do is prune off their
own dead limbs, and present the electorate with
candidates of definitely good qualifications. Our
prediction is that fatheads, drones, players-on-preju-
dice, exploiters of the purely political, gravy-boater-
men, windbags, johnny-come-latelys, coat-tail-rid-
ers, supporters and critics for purely political mo-
tives, nonentities, misusers of franks, second-guess-
ers, hand-wringers, and incompetents, are all going
to have a rough road to ride to election this fall.Party politics as such may as well adjourn for
the duration. We need congressmen who will sup-
port the war, not blindly, but intelligently and ag-
gressively. We need critics who will criticize alert-
ly, understandingly, and always with the sole pur-
pose of making the war effort more effective.The country, which is pouring out its blood and
its money to win the war, is in no mood for partisan
posturings by Flynn or anybody else. The party
that can present the electorate with the best list
of congressional candidates, intelligently alert to
prosecute the war with effectiveness, ought to get
a majority, regardless of which party it is; prefer-
ably if it is a combination of both.We need all the brains, ability, and real patriot-
ism in Congress that we can summon there, and
the country is not greatly concerned about which
party furnishes them.

Vichy Victory?

As the tragic comedy that is the so-called war
guilt trial at Riom drags on its weary way, there
is considerably more at the bar than the defendants
accused by nazi-bossed Vichy of forcing France un-
prepared into the war.The mental, moral and military muddling of the
Third Republic slouches before the ermine-clad
judges. Complacency of all peoples, including
Americans, who stand in Adolf Hitler nothing but a
bragging bum stands trial. The "all-for-one-and-
that-one's-me" attitude faces judgment.The victor in this trial will not be Vichy, Ber-
lin, Laval, Blum or Daladier. It will be people who
learn from it that you have to be ready to fight to
keep the peace.Speed Induction
of New RecruitsWashington, Feb. 25.—(AP)—
The new system of inducing se-
lective service recruits the same
day they receive their army
physical examinations will be ef-
fective as soon as instructions
now in the mails reach the local
boards, selective service officials
said today.Previously, men classified by
their local board as acceptable for
service have been given their
army physical examinations about
10 days before they received or-
ders to report for induction.Officials said registrants who
have passed the army physical ex-
aminations under the old pro-
cedure but have not yet been in-
ducted probably would receive in-
duction orders before their local
boards changed over to the new
system. The mechanics of the
shift to the new procedure, and
the time necessary to accomplish
it, are matters for the boards to
determine in the light of local
conditions, they said.Selective service officials said
the war department assured them
that in cases where immediate in-
duction would cause undue hard-
ship, the draftee would be given
an immediate furlough to wind up
his civilian affairs.

Boy Scout News

Troop 85 — Boy Scouts of
America will hold their weekly
meeting on Thursday evening at
7 p. m. at Bethel U. E. church on
North Galena avenue. An oppor-
tunity to pass tests in preparation
for the board of review next week
will be given. All ready to pass
tenderfoot tests should return
their cards filled out, so they can
be registered at once. The troop
recently has been engaging in
inter-troop first aid work under
the direction of first aid instruc-
tor Arthur Hoey, a troop com-
mitteeman. The boys assisted the
public library on two Saturday
mornings in collecting books for
the army camps. Several of the
boys participated in the Lincoln
Birthday pilgrimage. The Scout-
master, R. S. Wilson attended the
Black Hawk Council recognition
dinner at Oregon last week, and
received the scoutmaster's award
for first year work, as well as a
certificate recognizing more than
five years service in scouting.Plans are being made to collect
paper, rags and scrap metal in
the near future—in order to help
the country and also receive aid
for camping and scout equipment.
Plans are being considered for the
securing of a boat for use of
qualified swimmers this summer.
Any boy twelve years of age or
over is welcome to visit and join
this troop.

BEHIND
THE NEWS
By PAUL MALLON(Distributed by King Features
Syndicate, Inc., reproduction in
whole or part strictly prohibited.)Washington, Feb. 25.—General
MacArthur's enthusiasm in wiring
Joe Stalin congratulations for "the
greatest military achievement in
all history" is easily explained.
They both have found the answer
to blitz warfare, Stalin on a
grand scale, MacArthur within the
limitation of his forces.Theirs is not the French way
of building great defensive posi-
tions or supposedly "impregnable"
fortresses. Theirs is not the Brit-
ish way of trying to hold a de-
fensive line (as in the retreat to
Dunkirk). And, in fact, it is not
the way some Americans like to
think comfortably of defending a
hemispheric coastline which runs
from one pole to the other and
back again.Their answer is not intricate.
It is not even new. It is the way
Grant took Richmond, (by losing
or drawing battles but always
thereafter attacking immediately.)
It is the technique of Foch at
the first battle of the Marne, as
disclosed in his dispatch to Joffre:
"My right is exposed, my left is
heavily attacked, my center is un-
able to hold, I cannot redistribute
my forces. The situation is excel-
lent. I shall attack."Nor is the scheme exclusive. The
nazi General Rommel is working
it on the British in Libya now.MacArthur would probably call
the blitz-stopping technique a
"battle of maneuver" in contrast
to the old "battle of position." But
between all of us non-experts, it is
simply the scheme of counter at-
tack.Hitler marched into Russia with
the toughest army in the history
of the world. He plunged "accord-
ing to plan" up to the line of Len-
ingrad, Kiev, Smolensk, but then
he had to stop to bring up tank
maintenance supplies, airplane
parts, gasoline.The French would have started
digging in right there piling up
earthworks, tank traps, build-
ing pillboxes. The Reds counter-
attacked. They did not have
much, but it was enough to throw
the blitz out of gear.Again in the south, Hitler
marshalled initial superior
strength against Budyenny, then
commanding the Red forces in
the Ukraine.Budyenny gave ground, but the
moment Hitler decided to try to
take Moscow before winter and
shifted forces northward for that
effort, the Red Ukrainian troops,
now under Timoshenko, threw ev-
erything they had right back at
him. They had only a few tanks
and fewer airplanes, but their
counter-attacks were successful.The winter which Hitler thought
would stop hostilities came on,
but the Reds did not dig in. They
attacked.So also with MacArthur when
the Jap general Himeura figured
out a way to drive him off Bataan
(the same way the Japs beat the
British in Malaya) by sneaking
around by sea to his rear, Mac
Arthur could not stop that infil-
tration, could not shift sufficient
men through the jungles to clean
out the rear-flanking force. So
he attacked, straight ahead where
he could reach the Japs.The attack was wholly unex-
pected. Jap soldiers were lounging
there in front, waiting until their
flanking force had ruined Mac
Arthur so they could walk victori-
ously in upon him. The Japs had
to abandon the flank movement
to save themselves.The brilliant nazi tank General
Rommel was hit by a British blitz
which drove him half way across
Libya. But the moment the Brit-
ish paused for air, he was in upon
them with a successful counter-
attack.A new book is out called "De-
fense Will Not Win the War," by
Lt. Col. W. F. Kernan, an artillery
officer with degrees from Tulane
and Harvard, but not from the
leading military schools. Kernan
implies the British are still cling-
ing to a losing "defense" strategy
by trying to mass superior
"weight of metal" for a big blow.
He is afraid we are, too."It is not sufficient merely to
assemble an appropriate mass of
tanks, bombers, artillery and in-
fantry and send them against the
enemy's flank or center in order
to win a battle of the first class,"
he says. He wants "a major of-
fensive in Europe"; he wants it
this spring and he thinks the
spot to try it is Hitler's weakest
place—Italy.Hitler's whole strategy is based
on the expectation that the de-
mocracies will continue to act de-
fensively, this book maintains. . .
"It is not too late to upset his
calculations" . . . The defense
hypothesis has been "fatal" so
far. The democracies "never
concentrated for attack; all over
the world they elected to defend."Invasion of Italy, he says would
"take 200,000 men to start with,
and another 200,000 to follow ev-
ery month until victory is achiev-
ed. It would take three-fourths
of the fleet, at least half the Brit-
ish fleet, every bombing plane
and every transport of both na-
tions."BLACKOUT PROPOSED
Rockford, Ill., Feb. 25.—(AP)—
The Rockford Christian Temper-
ance Union proposed in a com-
munication to the city council
last night a 9 p. m. blackout of
all business establishments, tav-
erns, clubs, dance halls and
amusement centers "to conserve
electricity to aid war production".

"I LOVE YOU"

CHAPTER XIII

THEY spoke of many things—of
his work, what they read, what
they thought about. The rain came
heavily and went away, leaving a
persistent, protestant dripping
from the eaves. It was much later
when Parris said, "Maybe I better
go now.""Wait a little." She kissed his
cheek.

"I love you, Cassie."

"No you don't, Parris. But that's
all right."

"Listen now, Cassie."

"All right, what?"

"Someday I want you to marry
me.""Oh, Parris, there isn't any an-
swer for that—now."

"But why?"

"Because you don't really want
to.""I mean it! How do you know
what I think? I've got to study
and be a doctor and it will be a
long time—"She smothered the rest of the
sentence with her hand.Parris opened the door and shiv-
ered when the drenched night air
struck his flushed face."Listen, Cassie, I've got to see
you.""Maybe. Maybe I can think of
a way. But you'd better go now
Parris, sure enough. It feels late.""Listen!" The deep bell of the
town clock struck slowly—four
times.

"What'll you do?"

"I'm going over to Drake Mc-
Hugh's. Then I'll say I was with
him all night.""Maybe I love you—I don't
know."THE thinning clouds were turn-
ing pink overhead when he
knocked at the side door of the
Livingstone house."Say! Who's out there?" Parris
thought Drake sounded just a little
frightened.

"It's me, Drake. Parris."

Drake flung the door open,
blinking and incredulous. "What
are you doing around here this
time of night?"

"I've been at Dr. Tower's."

"This late?" Drake was incred-
ulous."He's in St. Louis. I went by for
my books, Cassie and I started
talking—" he broke off "She's
beautiful, Drake."

"Don't I know it?"

"I guess I'm in love with her."

"Maybe so, but you'd still better
take off that wet coat. And if Dr.
Tower finds out you've fallen for
her, even pneumonia won't save
you. Come on and get into bed."Parris laughed a little. What a
wonderful friend Drake McHugh
was! He understood you so well.
He thought of Cassie. An image
of her floated into his waning
consciousness and her presence in
his mind flooded his nerves with
a faint excitement.SPRING in Kings Row was never
more than a brief prelude to
summer. The leaves unfolded and
there was a week or two of balmy
warmth, then a sudden onslaught
of blistering heat. The idlers who
hung about stores in the back
quarters of stores came out and
took their accustomed places on
the courthouse lawn.On the west porch of the court-
house was another group. This was
the upper order. They were wit-
ness, jury, and judge of any hap-
penings in the town or county."Say, I hear old man Tod Irving
down at Little Fork passed on."A new speaker interrupted. "I
guess you all ain't heard the news
about Mls' Sims.""She was operated on by Dr.
Gordon last week."

"Is that so? What for?"

"I don't know exactly. Some-
thing about her ear, I heard."

"Oh."

"Well, I hear the operation went
through all right, but they say
half her face is paralyzed.""Does seem to me, though, this
Gordon does a powerful lot of
operat'ing."DR. TOWER handed a small
German pamphlet to Parris."This may interest you. It is new
and important."Dr. Tower watched Parris
keenly."I saw your grandmother yester-
day."Parris looked up, somewhat
startled.

"Yes, sir?"

"I hope you won't misunder-
stand my question, but have you
any idea what's wrong?"Parris laid the book down. "No,
I haven't really. I believe—well,
sir, I just hadn't thought it could
be anything serious."

"She doesn't look well."

The peculiar emphasis this time
really frightened Parris. "Do you
think there is something—"Dr. Tower interrupted brusque-
ly. "I don't think anything about
it. I'm not your grandmother's
physician."

Parris flushed darkly.

"Have you any relatives?"

"None at all. Only some very
distant ones—that my grand-
mother doesn't like much.""H'm. You'll be quite alone
when—quite alone some day."Parris didn't answer. His lips
were quivering."Did you ever hear of Dr. Ladd
in St. Louis?"

"Yes, sir."

"Do you think you could in any
way persuade Madame von Ein to
go to St. Louis to consult him?"The color faded slowly from
Parris' face, his eyes darkened,
and his words came huskily. "I
don't know how I could do it.
She'd want to know what made
me think of it.""Yes, yes. Doubtless. Is Skef-
ting her lawyer?"

"Yes, sir."

"Could you talk to him?"

"Maybe.

Scramble Supper
Seventy-five members of the Willing Workers Sunday school class of the Evangelical church with their families enjoyed a scramble supper in the church parlors Monday evening. The tables were prettily decorated with red, white and blue tapers and several small American flags artistically arranged formed the centerpiece. Each place was marked with a red hatchet and red and white napkins were used to complete the patriotic color scheme.

A fine variety and an abundance of food satisfied the group who enjoyed games during the social hour which followed.

"Trends in Public Welfare in Illinois," was the subject of a talk given before the Ashton Woman's club in the Legion club room, Mills & Petrie Memorial building on Friday, February 20th at 3:00 p. m. by Mrs. Anna P. Johnson, senior psychologist of the Dixon State hospital. Mrs. Olive Bergeson, co-chairman of the public welfare department introduced the speaker. Mrs. Johnson told of some rather startling changes to be made in state hospitals, due to overcrowded conditions. Many of the patients are to be returned to their respective communities to be the responsibility of churches, homes and schools, that state institutions can no longer be custodians of unwanted relatives.

Mrs. Johnson also told of a new approach in the handling of new delinquents received at the St. Charles School for Boys. No longer are they brought in manacled to the officer in charge. They are assigned to separate cottages in charge of house mothers and fathers and are not treated as prisoners at all. They are not allowed to associate with some of the others who have been in the school for some time and on good behavior are eligible for parole every four months. Mrs. Johnson stated delinquencies are confined to certain areas and in many cases, due to economic conditions.

Soybean Prices To Be Supported Says Secretary Wickard

Government Will Move to Keep Level at Not Less Than \$1.50 Bu.

Chicago, Feb. 25.—(AP)—Soybean prices will be supported by the Commodity Credit Corporation at not less than \$1.60 a bushel for No. 1 and 2 yellow soybeans of high oil content.

This announcement by Secretary of Agriculture Wickard yesterday supplemented the program made public on Jan. 16. The corporation will buy soybeans stored in approved warehouses or delivered to designated points at the top base price for high oil content beans, at \$1.50 for medium oil grades and at \$1.40 for low oil content beans, through Jan. 30, 1943.

Under the new program, the CCC also will loan on farm stored soybeans at a price 5 cents higher than the base purchase quotations.

The department also has underwritten the soybean seed market by agreeing to purchase all un-mixed approved varieties of beans remaining on hand May 31, 1942 at a price of \$2 a bushel, provided the germination is 85 per cent or better.

Trade sources reported there were evidences of a "seed panic" at times last month, but that such reports were exaggerated. They added however, that in the face of a below normal germination situation, seed prices were higher than usual.

Early Seed Buying Urged

Producers were urged to purchase seed requirements at the earliest opportunity and to make certain they were getting approved varieties, tested for germination. Soybeans, with a moisture content of 12 per cent or less were reported the safest for use as seed.

Prices of soybean futures have held at near record levels for some time, advancing to \$2.03 1/2 for May contracts here on Jan. 30, an all-time high for the Chicago Board of Trade. At the close yesterday, May beans sold for \$1.97 5/8, or only 5 7/8 cents under the peak.

Prices of cash beans ranged from 5 cents under the futures quotation to about 20 cents below on the farm.

Soybean oil also has steadied at the 11 1/2 cents a pound ceiling fixed by the Office of Price Administration, although there were trade rumors in New York yesterday that this ceiling would be advanced to at least equality with crude cottonseed oil which would mean close to a cent a pound higher.

Conversion Scale

While soybean meal futures have sold off recently, they still maintain a premium over cottonseed meal futures of around \$2 a ton.

One trade source recently figured a soybean crop conversion scale as follows: 1 bushel soybeans, weight 60 pounds, sold at \$1.85. This was converted into 8.8 lbs. of crude oil at 11 1/2 cents, or \$1.034 and 49.5 pounds of meal at 1.88 cents, or .931. This brought the total to \$1.965, providing a gross processing margin of 11.5 cents a bushel.

The 1942 goal for soybeans was set at 9,000,000 acres, an increase of about 54 per cent over last year. Greater soybean production was sought to provide more beans for processing into oil to supplement supplies of vegetable oils, imports of which have been curtailed sharply because of the war.

Only 30 per cent of the total milk supply is used for beverage and cooking purposes; much of the 70 per cent remaining is for the making of dairy products.

Pope said the OPA has not yet released details as to who will be eligible to receive new automobiles under rationing regulations. March 2 is the first date upon which applications for new passenger cars can be filed with local rationing boards. Over \$2,000,000 Paid in U. S. Taxes Weekly by Chesterfield Firm

How important America's great tobacco industry is as a source of national revenue is emphasized in the new advertising for Chesterfield cigarettes. The campaign points out that this revenue is more important than ever now, when we are making the greatest war effort of all time, because of what it can buy to help arm America.

More than \$2,000,000 a week—over \$104,000,000 a year is paid to the U. S. Treasury—for the tax stamps for Chesterfields. The campaign shows, on a yearly basis just what \$104,000,000 means in terms of ships, planes, tanks, guns and all the things it takes to equip our fighting forces for the gigantic task ahead.

For example, in the first advertisement in the new series, which will appear shortly, Chesterfield shows that the revenue tax paid by them on a year's output could buy 1,300 two-motored bombers, or 1,485 medium heavy tanks, or 346,666 military parachutes.

To fully appreciate the significance of these figures it should be noted that the cost of a parachute is calculated at \$300, a medium heavy tank at \$70,000, and a two-motored bomber at \$80,000.

Dennis Collins Has No Contest Ahead in Primary or Election

Michael Kinney of Dixon Files as Democratic Congress Nominee

Springfield, Ill., Feb. 25.—(AP)—Dennis J. Collins, 42-year-old Republican legislator from DeKalb, is one candidate who isn't worried about elections. He's unopposed in either party for election as state senator in the 35th (DeKalb-Lee-Whiteside) district. Collins, completing his 12th year in the Illinois house, is scheduled to take the senate seat vacated by George C. Dixon, who was elected Circuit judge in the Dixon district. He is the only Republican running for the GOP nomination and no Democrats entered the primary.

Two Democratic house members, Emmett McGrath of Brookfield and Leon M. Schuler of Aurora, also may find a clear field for re-election. They are the only Democrats seeking the nominations in their districts and if Republicans nominate the customary two candidates they will automatically be elected in November since three representatives are elected from each district.

Eight Without Worries

Eight incumbent Illinois congressmen have no reason for worry in the April 14 primary because they are unopposed for re-nomination. Five others are not running for another term. Forty-seven other incumbents in state, legislative or central committee posts also are without opposition in the primary.

Congressmen unopposed for re-nomination are Charles S. Dewey (R-Chicago), Leo Allen (R-Galena), Anton J. Johnson (R-Macomb), Robert M. Chipperfield (R-Canton), James M. Barnes (D-Fairfield) and C. W. Bishop (R-Carterville).

The five congressmen not seeking re-election are Arthur Mitchell, Raymond S. McKeough, Harry P. Beam and A. F. Maciejewski, all of Chicago, and Edwin M. Schaeffer of Belleville. McKeough is running for the Democratic senatorial nomination. Although he is assured of re-nomination at the Republican primary Congressman Allen will have opposition at the general election next fall.

Michael M. Kinney, of Dixon, has filed nominating petitions at Springfield as a candidate for the Democratic nomination for 13th district congressman, an Associated Press dispatch disclosed yesterday.

Allen and Kinney are the only candidates for their respective

Twenty blueprints have been received from the state department, and additional copies are being made at the high school for distribution to the grade schools. Construction work is expected to get underway on Friday.

"Cats, the Feline Species," was the subject chosen by Don McMahon, speaker at yesterday's luncheon meeting of the Lions club. He described the cat as being the oldest domesticated animal, having been important to early sportsmen as a retriever and hunter; invaluable to man as a killer of rodents; and the greatest of all pets, "whose only desire is to live for the moment, going about his daily business believing only what he can see."

C. B. Lindell, manual training instructor at the high school will address the Lions club on March 10, reporting progress on the construction of planes, exhibiting models and explaining blueprints.

Wartime Morale
Is a Woman's Job

The women of America owe it to themselves—and to their men—to look as beautiful in wartime as they ever did in peacetime.

In fact, war-torn Europe and Asia have learned that—to preserve morale—gaily and beauty must be maintained. That's why, in London, theatres are crowded, dance bands work overtime, and women are permitted to buy cosmetics with scant restriction.

Nothing gives a man greater confidence, greater courage, than to see wife or sweetheart display her own courage—in the smartness of her appearance.

In these times, therefore, you must not let your men down—or yourselves.

AN OPEN LETTER TO BEIERS BAKERY FROM MRS. GEORGE THURN

Mrs. Thurn, Nationally Known Home Economist,

EAT MORE BEIERS

B-B-B BREAD

Gentlemen:

I wish to take this opportunity to express my appreciation for your generous cooperation during The Dixon Evening Telegraph Cooking School.

It was really a pleasure to use Beier's bread at the school. I honestly believe that Beier's, of all breads I have used in my schools throughout the country, retains its freshness longer than the average bread.

The flavor of Beier's Bread is exceptionally fine. This is undoubtedly due to your cooling process which seals the flavor in the loaf. I assure you that I can whole-heartedly endorse your bread to be among the finest I have ever used!

Wishing you success in '42. I remain

Very truly yours,

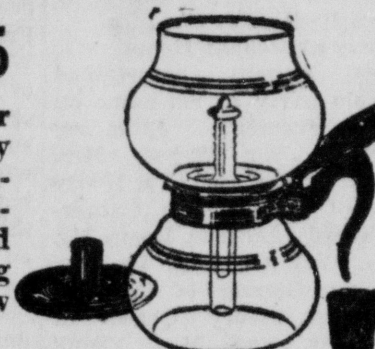

Mrs. George C. Thurn

Sarah Marguerite Bauer
Sarah Marguerite Bauer, nee Sarah Montavon, was born at Commune de Montavon, District of Delemont, Canton de Berne, Switzerland on March 16, 1854. At the age of 20 years she was united in marriage to Joseph Bauer of Bouquet, Switzerland.

To this union were born four children as follows: Joseph B. Bauer, Frank Bauer, Mary Cardot, all of West Brooklyn and Julius Bauer of Rockford. After seven years of married life, the husband passed away following an accident in which he sustained vital injuries, but Mrs. Bauer continued to keep the family together and maintained the home by plying her trade as dressmaker.

Some three years later, she was united in marriage to Frank Bauer, an elder brother of her deceased husband and they continued to make their home in the same village. Louis Bauer of Compton was the first-born child to this union.

In the spring of 1886 a party of thirty-six, comprising some four families living in that town decided to migrate to America where relatives had already paved the way. Those in the group were the families of Mr. and Mrs. Frank Bruer, Mr. and Mrs. Henry Bauer, Mr. and Mrs. Gust Weiser and Mr. and Mrs. George Vernier. They landed at Compton in April of that year and soon made themselves a part of the communities of both villages. Other members of the group continued to ply their various trades, and Mr. and Mrs. Frank Bauer turned to farming in the vicinity.

The following children were added to the family during their stay in the vicinity: Laura, now deceased; Leon of Marengo, Ill.; Louise, deceased; Lizzie O'Hare of Malta, Ill.; Edward of West Brooklyn, and Amile of Rochelle.

After much hard work, and having reared their family, the aged couple decided to retire and in 1920 they purchased a comfortable home in West Brooklyn. The home was broken up in April, 1928 when the husband passed away. From that time on, Mrs. Bauer made her home with her children but for the past five years she lived with her daughter, Mrs. Amile Cardot in the former's home where, where she passed away on Tuesday, February 17, 1942, in her sleep.

Funeral services were held on Thursday morning from St. Mary's church in West Brooklyn at ten o'clock with services conducted by Rev. Father Guccione. Pallbearers were Louis Chaon, Joseph Sondergerth, Alex Jeanblanc, Henry W. Gehant, Ray Sheridan and George Halbmaier. Interment was made in the Catholic cemetery beside her husband.

She leaves to mourn her passing nine children; 23 grandchildren; 37 great grandchildren; one great-great-grandchild besides a host of friends and former neighbors. Mrs. Bauer was truly one of the pioneers of this community and her winning smile and kindly disposition will long be remembered by all who knew and loved her.

Baby Baptized
The infant daughter of Mr. and Mrs. Jos. Weinzierl was baptized at St. Mary's Catholic church on Sunday, Feb. 15. The child was given the name of Sandra Catherine. Gwendolyn Wright and John Weinzierl were the sponsors. Rev. Fr. Guccione officiated at the services.

Farewell Party
Mr. and Mrs. Leroy Chaon were honored with a farewell party at their home on Saturday when relatives called to spend the evening with them. Cards were played with Miss Helen Louise Chaon winning high prize, Mrs. Leroy Chaon low and Donald Delhotel all-out. Lovely refreshments were served. Making up the party were Mr. and Mrs. Oliver Chaon and daughters, Mr. and Mrs. Lionel Chaon and sons of Compton, Mr. and Mrs. Walter Delhotel and children, Mr. and Mrs. Clarence Montavon, Mr. and Mrs. Anthony Gehant, Andrew Gehant, Mr. and Mrs. Frank Chaon and Miss Helen Louise Chaon. Mr. and Mrs. Chaon and daughter will move to a farm in the vicinity of Sublette in the near future.

Discharged Employee of State Goes to Court in Effort to Get Job Back

Chicago, Feb. 25—(AP)—Frank J. Hart, 52, of Elgin, asked the Circuit court yesterday to direct the Illinois State Civil Service Commission to produce the record of a hearing which ended in his discharge as an attendant at Elgin state hospital.

After having been employed at the hospital six years, Hart was dismissed Jan. 15, 1941. Charges filed with the commission by the ther. director of the state department of public welfare were based on alleged political activity during the 1940 elections.

Through his attorney, Hart seeks a court order reversing the commission's decision on the ground that he was given an unfair trial.

Lee, Paw Paw and Rollo Win in Franklin Grove Tourney

Lee and Rollo Have Tough Time Winning, Paw Paw Easy Going

Knetsch, Paw Paw Center Has Field Day—25 Points

GAMES LAST NIGHT
Lee 27; W. Brooklyn 26.
Paw Paw 51; Walnut 33.
Rollo 54; Franklin Grove 32.
GAMES TONIGHT
7:30—Steward vs Ohio.
8:30—Earlville vs Lee.

Last night over at Franklin Grove the Paw Paw and the Rollo high school basketball teams went their way to face each other in the semi-finals of the district tourney Friday night. Lee, the other winner in the Franklin tourney must play Earlville tonight before she can advance to the semi-finals.

West Brooklyn lost a heart-breaker to Lee last night as she staged a beautiful rally in the fourth quarter, but lost Bieschke, a guard, on four fouls, and this left her with only four men on the floor because she only had five boys to begin with. Lee on the other hand had built such a wide margin in the third quarter that the Brooklynites were too heavily handicapped in order to make a successful rally in the final period.

The score at half-time was all tied up at 9 counts apiece; Lee took the lead in the third period and never relinquished it as she built up a margin of 15 to 6 going into the fourth period. In the last frame the Brooklyn boys outscored Lee 11 to 3 even though the latter had only four men on the floor a good share of the time but these 11 tallies fell short by one point of tying the game up and it ended in Lee's favor 27 to 26.

Paw Paw and Walnut
Coach Flancher's boys from Paw Paw look as though they might be on their way to a consecutive district title. After a thrilling even-up first half the Flancher-men laid the scoring on heavy in the third frame and walked off with a win in an easy fashion.

Paw Paw took a one point advantage at the quarter of 14 to 13 and barely gained another in the second as she rang up 7 tallies to that of 6 for Walnut which put the score at the half 21 to 19 favoring the Paw Paw team.

In the third quarter the season was completed for the Walnut five as they were smothered under Paw Paw's fast break by the count of 14 to 3. The gallant crew from Walnut wouldn't say die as they came back scrapping in the fourth to score 11 counters but it wasn't even good enough with which to make a rally for the Flancher-men outdistanced them in this frame also by adding 16 points to their score which brought the final to 51 to 38.

Knetsch, tall center for Paw Paw, drew the evening's spot light on himself as he tossed in 11 field goals and three charity shots for a total of 25 points which was half of his team's total. Baumgartner, Coach Neal Mosher's center, paced his team with 15 points.

Franklin and Rollo
In what proved to be the thriller of the night the Wildcats, tourney hosts, were turned back by the bare margin of 2 points at the hands of a Rollo five.

Rollo had her own way in the first half by outscoring the Grov-ers 21 to 13. But in the third period the Wildcats rallied and shortened the margin by ringing up 10 tallies to Rollo's 7; then the hosts proceeded to duplicate the performance by rallying in the fourth and outscoring Rollo but it wasn't quite enough to tie the game up as Rollo finished with a two point margin, Franklin outscored Rollo in the fourth 9 to 6; but the game finished in favor of Rollo 34 to 32.

Knight led the winners with 6 field goals and 1 charity toss for a total of 13 points. Johnny Lee, Wildcat forward, scored high for the Franklinites with 15 points.

Games Tonight
The remaining games in the first round of the tourney will be played off tonight and the semi-finals will be underway tomorrow night. Steward faces Ohio tonight in the first game at 7:30 p. m. Earlville will be playing Lee in the second game scheduled to start at 8:30 p. m.

Post Office Team Defeats Strub & Schultz 3 Straight

Myers & Nolan Stay in Lead of City League

The Myers and Nolan keepers, riding on the crest of the top spot in the City League at the Dixon Recreation, were turned back last night by two defeats at the hands of the Reynolds Wire. This brought the Reynolds team into a tie for third place with the Blackhawk stores. The Myers outfit still fortunately hold first place due to the past margin of wins which they had accumulated; however, they are now within striking distance and it might be that the second-place Post Office team might tie the league all up next week. In last night's match McCollum led the Wire boys with a series of 602 and Bobby Pfaff was top for the Clothing outfit with a 540.

The Post Office team soundly doubled the Strub and Schultz bowlers in three straight games. Duffy fronted the Mailmen with a 568 series and Bondi hit a 607 for the Strub and Schultz outfit.

The Blackhawk Food store squad lost two to the Meister Brau team, but by virtue of winning one game the former managed to hang onto a tie for third place in the standings. Grow and Fazzi each rung up a 449 to lead the winners and Bollman was highman for the losers with 526.

The Myers Royal Blue team defeated the Three Deuces two out of three as McClanahan hit the high points for the Royal Blue with 536 and Hahn was high for the Deuces with 553.

Principal factors in the rise of motor vehicle ownership and operation taxes above the 1940 total of \$2,130,147,000 are more mileage per vehicle, increased registrations and higher federal excise taxes.

The ratio of motor vehicles to population in some of the more densely motorized countries outside the United States shows New Zealand with 1 motor vehicle to every 6 persons; Canada, 1 to 8; France and Gibraltar, 1 to 17; United Kingdom, 1 to 19; and Denmark, 1 to 23.

World Day of Prayer

The World Day of Prayer services were held Friday afternoon at the Baptist church at 2:00 p. m. About 70 attended the services. Theme: "I Am the Way"

—The Way Back to God
—The Way of Self Surrender
—The Way of Peace
—The Way of Love
—The Way of Light
—The Way of Power.

The program itself was prepared by three women unusually rich in Christian experience and brave climbing the steep ascent through peril, toil and pain. Two of these women had been driven from their homeland, the third was a seminary professor who herself had taught briefly in China and could speak German fluently and thus understand the German refugee pastor's wife when her emotions rose and her speech dropped back to the native tongue to sob out her story. This pastor's wife had been separated from her husband, both in concentration camps a thousand miles apart. She and her husband, now safe in the land of freedom, bring the deep experience of those who have been persecuted because of their faith.

Locally, the committee was Mrs. William Faber, Mrs. Fred Grunderman and Mrs. James Hagerty. Mrs. Herman Meyer was in charge of the whole program. Three members of the three missionary societies took part in the program. Special music was by Mrs. Ray Stroyan who sang "My Prayer," Mrs. John Edwards who sang "A Prayer" and Rosemary Nangle who sang "Peace, Perfect Peace" and also sang "In Christ There Is No East Nor West." Rev. Hagerty closed the program with a reading called "The Way of Power"

Ballistics Expert on Stand in Trial of Mrs. Caroline Payne Tuesday

Bloomington, Ind., Feb. 25—(AP)—The three bullets that killed Charles O. Mattingly, a ballistic expert testified in the murder trial of Mrs. Caroline Payne, have the same markings of those fired from a .38 caliber pistol purchased by the woman's nephew.

The state contended the pistol was found among the woman's belongings.

Testimony about bullet markings was given a jury by Robert Borkenstein, chief laboratory technician for the state police department, yesterday after Mrs. George Heitger, widow of a Bedford Hardware man, identified a record of a purchase of a .38 caliber pistol by Douglas Smiley, Mrs. Payne's nephew.

The record was dated Nov. 20, 1940. Mattingly, a 41-year-old attorney and examiner for the Indiana Public Service Commission, was slain July 5, 1941, while visiting friends.

The state charged Mrs. Payne, 44, killed him in jealousy over his marriage to another woman. Mrs. Payne has pleaded innocent and temporary insanity.
